Transitron

EQUIPMENT MANUFACTURER'S

PRICE LIST

TERMS AND CONDITIONS

1. Acceptance

The Seller is not bound by any terms listed on Buyer's orders or forms which are at variance with these terms and conditions, and Buyer's acceptance of any items covered by Buyer's order shall be deemed an acceptance of these terms. All contracts or orders are subject to acceptance and approval by Seller at the Company offices in Wakefield, Massachusetts.

2. Warranty

Transitron Semi-Conductor Products are warranted during a period of one year from the date of shipment to be free from defects in material or workmanship and to meet their ratings in applicable published specifications. The liability of Seller under this warranty is limited to replacing or repairing any units defective in these respects which are returned by Buyer during such period and which have not been subjected to misuse, neglect, improper installation, repair, alteration or accident. Seller shall have the right of final determination as to the existence and cause of a defect. In no event shall Seller be liable for collateral or consequential damages. This warranty is in lieu of any other warranty, expressed, implied or statutory, and no agreement extending it will be binding upon Seller unless in writing and signed by a duly authorized officer or representative.

3. Quotation

Formal quotations are considered to have expired thirty (30) days after date of issuance.

4. Prices

Published prices are subject to change without notice. Prices quoted are F.O.B. factory at Wakefield, Melrose or East Boston, Massachusetts. Prices do not include local, state, or federal sales and/or excise taxes.

5. Payment

In cases where credit approval has not been established Seller may request payment in advance or may ship items C.O.D. Where sales are made on a credit basis, the net amount of the invoice becomes due within thirty (30) days of the invoice date.

6. Delays

Seller is not liable for delays or defaults in delivery due to causes beyond his control and not occasioned by his negligence, and reserves the right under these circumstances to terminate the order or to reschedule delivery against the order. In the event that a rescheduling of delivery becomes necessary, Buyer can agree to a revised delivery schedule or can terminate the order.

7. Applicability

All quotations covering semiconductor products are made and all purchase orders for semiconductor products are accepted subject to these terms and conditions, except as specifically provided by written agreement of Seller.

8. Minimum Factory Order \$50.00 Total.

9. Delivery

For prompt off-the-shelf delivery of quantities 1 to 999 call your nearest authorized Transitron distributor. A complete listing of distributors can be found on the back cover.

REGULATIONS GOVERNING ORDERS REQUIRING GOVERNMENT

SOURCE INSPECTION

1. All orders requiring government source inspection including orders for JAN, USN, USAF & USA units must specify that government source inspection is required.
2. The original purchase order and a minimum of one carbon copy must be submitted.
3. A government contract number is required unless the units are for government bonded stock.
4. Orders for government bonded stock must specify that they are for bonded stock.
5. Telephone orders will be accepted but the order CANNOT BE SOURCE INSPECTED until a confirming order is received.
6. Orders for government source inspected units must be submitted separately and not included on orders for commercial units.

Compliance with the above regulations will eliminate unnecessary delays.

MIXED QUANTITY PRICING:

Mixed quantity pricing shall apply on all integrated circuit gates in the same type package regardless of quantity, function, fan out temperature range. Thus, on any one order, the price for individual types will be the price as shown in the quantity column in which the total order quantity would fall.

NOTES:

- The above listed circuits can be supplied with minimum fanout of 20 at a 20% increase in price over the fanout of 15 pricing. (Series I)
- The above listed gate circuits can be supplied with a maximum propagation delay of 10 nanoseconds (C_L :: 15 pf, F.O. :: 1) for the fan-in of 4 circuits and 12 nanoseconds for the fan-in of 8 circuits without a sacrifice in fanout power dissipation or noise margin at 20% increase in price. (Series I)
- The above listed flip-flop circuits can be supplied with a maximum propagation delay of 20 nanoseconds on the Charge Storage flip-flop and 22 nanoseconds on the Master Slave flip-flops without any sacrifice in fanout power dissipation or noise margin at a 20% increase in price.
- The above listed circuits can be supplied in 14 lead flat package (Use Suffix F on type numbers) or 14 lead dual in-line package (Use Suffix P on type number).

MIXING QUANTITY PRICING:

Mixed quantity pricing shall apply on all integrated circuit gates in the same type package regardless of quantity, function, fan out temperature range. Thus, on any one order, the price for individual types will be the price as shown in the quantity column in which the total order quantity would fall.
