Meet Our Advisory Board

We are proud to present the Advisory Board for Datapro Reports on PC & LAN Communications. Each of these individuals is committed to continuing involvement in our ongoing publication of monthly issues. They are an active resource to us, providing formal review of each issue's contents and informal advice about the technical and editorial direction of the service. We thank them for their continuing support.

Bernard J. David

Bernard David is founder and president of General Information Services, Inc., a company that specializes in connecting dissimilar computers through product provision (both third-party and in-house), evaluation, and consulting. As president, Mr. David has responsibility for overall financial, marketing, and operational management of the firm, which has more than 2,000 clients. He has conceived, designed, and managed development of two connectivity products: Graphics Exchange (PC-based graphics for Wang's WP-Plus editor) and BlueFax (IBM S/3X-to-facsimile). Mr. David has authored a number of articles on connectivity, published or referenced by Datapro, Business Week, The Wall Street Journal, The Philadelphia Inquirer, and several other computer trade publications. He is a lecturer on computer connectivity for Apple, AT&T, Digital, Hewlett-Packard, IBM, Wang, Businessland, Computerland, and Entre Computer Centers. He is also a lecturer in entrepreneurship at The Wharton School, where he teaches "Entrepreneurship and Venture Initiation." Mr. David holds his MBA in marketing and BS in finance from The Wharton School of

the University of Pennsylvania, and his BA in political science from the University of Pennsylvania.

John L. Hueter

Jack Hueter is corporate manager of the Information Systems Division of the Franciscan Health System, a 3200-bed, 11-hospital system. As a corporate manager, Mr. Hueter is responsible for all systems planning, development, and support for corporate and member hospitals. Mr. Hueter has systems experience covering mainframe, minicomputer, and microcomputer applications. He also serves as an instructor for the Management Institute of Glassboro State College in Glassboro, NJ, where he conducts personal computer seminars. Prior to joining the Franciscan Health System, Mr. Hueter worked as a management consultant for the Big Eight consulting firm Ernst & Whinney. Mr. Hueter has his MBA and BA from Rutgers University and is a Certified Public Accountant.

Leonard J. Mikolajczak

Len Mikolajczak has many years experience in data communications as a vendor, consultant, and educator. Mr. Mikolajczak has expertise in data/voice communications project management and technical writing/training, with particular emphasis on IBM, Digital Equipment, and Wang products. Drawing from his years of experience with 3Com, Novell, and many other LAN vendors and products, Mr. Mikolajczak has written several papers, training courses, and CBT software packages. He heads up DACOM, a consulting and technical

training firm that specializes in data and voice communications consulting, technology assessment, market research, technical publishing, and educational services. DACOM's client base ranges from small shops to *Fortune 500* companies. Mr. Mikolajczak has served as a trainer for several seminar companies, including Datapro. Courses developed and taught by Mr. Mikolajczak include Fundamentals of Data Communications, Fundamentals of Local Area Networks, Advanced LAN

Connectivity Techniques, Advanced Data Communications, Information Technologies, SNA Data Flow Concepts, and IBM Concepts and Terminology. Mr. Mikolajczak holds an associate of arts degree from Camden County College in Blackwood, NJ and a bachelor's degree in education from Vanderbilt University. He is currently working toward an advanced degree with emphasis on data/voice communications. ■

StarPath Systems Inc.—
Multiuser DOS Systems: Overview:
719-101

STEPserver and SpeedLink/12
Concentrator (Everex Systems Inc.):
600-E900-101

Sterling Software Inc.—
PC-to-host communications products
(comparison columns): 511-301

STF Technologies Inc.—
PC-to-fax boards (comparison
columns): 572-301

Storage Dimensions Inc.—
network servers (comparison columns):
520-301

Structured Software Solutions Inc.—
PC-to-host communications products
(comparison columns): 511-301

Sun Microsystems Inc.—
diskless workstations (comparison
columns): 520-301
network servers (comparison columns):
520-301

Sun Moon Star—
microcomputer systems (comparison
columns): 550-301

SunRiver Corp.—
Multiuser DOS Systems: Overview:
719-101

Suntronics Co. Inc.—
microcomputer systems (comparison
columns): 550-301
superservers—
Superservers, An Overview of: 752-101

Swan Technologies—
microcomputer systems (comparison
columns): 550-301

Symciron Inc.—
bridges (comparison columns): 520-301
gateways (comparison columns):
520-301

Synex Systems Corp.—
PC-to-host communications products
(comparison columns): 511-301

SynOptics Communications Inc.—
bridges (comparison columns): 520-301

LattisNet Intelligent Hub Systems:
680-S900-101
routers/browsers (comparison columns):
520-301
wiring centers (comparison columns):
520-301

Systems Application Architecture (SAA) (International Business Machines Corp.): 723-101
 Systems Integration Assoc.—
 microcomputer systems (comparison columns): 550-301
 Systems Network Architecture (SNA) (International Business Machines Corp.): 721-101
 Systex & Assoc.—
 microcomputer systems (comparison columns): 550-301
