

## SyncMaster® GS

14" Flat Screen Monochrome Monitor - Model MF4771

An affordable 14" multi-scan monochrome monitor ideal for desktop publishing, text-based applications and graphical environments like Windows®, GEM® and Presentation Manager®. A flat, non-glare screen keeps graphics and text razor-sharp. Compatible with both Apple® Mac II® and IBM® systems, the SyncMaster GS is versatile and economical enough for any desktop environment.

**Super 800 x 600 resolution** and unlimited gray shades bring graphics to life. Paper white phosphor helps images appear crisp, bright and super-clear.

**Compatible with all popular video standards** including Super-VGA, VGA, EGA, CGA, Hercules®, MDA, PGA and Apple Mac II. Horizontal scanning frequencies automatically adjust from 15 to 38KHz. Vertical scanning frequencies automatically adjust from 48 to 72Hz.

**Convenient controls and tilt-swivel base** for easy viewing adjustment.

## Specifications

## SyncMaster GS

---

<b>CRT</b>	14" screen with 90-degree deflection, non-glare face, medium-persistence phosphor.
