Mr. Terry Jackson 147 E. View Street Lombard, IL 60148

June 14, 1979

After two years of anticipation, it's here... the 6809!

But take note of the following:

1) The MD-690 series is still available with the 6802 processor. Order MD-690a for the 6802, MD-690b for the 6809.

MD-690a (w/6802) kit - \$198 a/t - 258 MD-690b (w/6809) kit - 239 a/t - 299

2) Systems are available with the 6802 or 6809. Systems 1 and 2 refer to 6802 based systems, Systems 8 and 9 are 6809 based.

3) Our cassette based assembler for the 6809 is available for \$39. It is best used in a system having at least 16K RAM.

4) Microsoft BASIC for the MD-690a and 6802 System is only \$34.95, BASIC for the MD-690b and 6809 System is \$39.

5) These boards and systems are in stock, but we have a wait list for 6809 chips. 6809's are being made and we have been getting them in. 6809 based units are being sent on a "first ordered, first delivered" basis. Orders received today for the 6809 will most likely be filled in 3 to 5 weeks.

6) We have a good "CP/M like" Disk Operating System in the works for the 6809. Call for details and availability.

Sincerely, John Stuppy, President
