| Bulletin No. | 1590-01                |
| Description  | SUPERSCRIPSIT          |
| Model        | Model I/III            |
| Stock No.    | 26-1590 Vers. 01.00.00 |
| Date         | July 13, 1983          |
| Page 1 of    | 1                      |

### Problem

Changes have been made to SuperSCRIPSIT to include the addition of several new printer drivers, additional documentation, the inclusion of a patch file to enable SuperSCRIPSIT to run on LDOS Hard Disk (for Model III only) and several program modifications to SuperSCRIPSIT and the SCRIPSIT Proofread program.

\* \* THE FOLLOWING CHANGE IS REQUIRED! \* \*

### Solution

Due to the number of modifications required, 700 Series have been distributed. The upgrade for Model III SuperSCRIPSIT is 700-2224. The upgrade for Model I is 700-2228.

The version number will be 01.02.00. Please make the necessary entry in your Version Log.
