Problem

Inventory Management allows you to list on the screen all unposted sales transactions. It will list 16 items, then drop the 17th item.

Solution

The problem is corrected by following the steps listed below.

1. Backup the diskette(s) and make the changes on the Backup copy of the program.
2. In BASIC load the program by typing LOAD"SALES/BAS".
3. Make the following corrections:

CHANGES (Retype the line or refer to the Edit section of the owners manual)

Old Line: 2540 P=P+1:NEXT:IFN+15<NSTHENN=N+17ELSEN=1

New Line: 2540 P=P+1:NEXT:IFN+15<NSTHENN=N+16ELSEN=1

4. Type SAVE"SALES/BAS" to save the changes in the program.
5. At TRSDOS Ready, make a backup copy of the corrected diskette.
