Stock No.	26-4505 Version 1.0
Date	Dec. 15, 1981
Page 1 of	1

Problem

Program line 4010 appears to lack logic regarding the approval of checks the first time and whether or not a second printing is needed.

Solution

The problem is corrected by following the steps listed below.

1. Backup the diskette(s) and make the changes on the Backup copy of the program.
2. In BASIC load the program by typing LOAD"APS/BAS".
3. Make the following corrections:

CHANGES (Retype the line or refer to the Edit section of the owners manual)

Old Line: 4010 W7=1:CF=0:WD=0:FORW9=1TOGT:G#(GT)=0:NEXT

NEW LINE: 4010 W7=1:CF=0:WD=0:FORW9=1TOGT:G#(W9)=0:NEXT

4. Type SAVE"APS/BAS" to save the changes in the program.
5. At TRSDOS Ready, make a backup copy of the corrected diskette.
