Date	May 27, 1982
Page 1 of	1

Problem

Effective September 7, 1981, the West Publishing Company made a change to the WESTLAW Data Base System. The change consists of the addition of a copyright notice to each screen of information, and requires a patch to all existing versions of the WESTLAW interface Software. This is necessary to prevent a problem with the screen scrolling up one too many lines in some cases.

Solution

At TRSDOS READY, apply the following patch.

```
PATCH WEST A=311D F=16003E0BCFC5 C=06173E08CFC9
```

The above patch does not affect operation with the current WESTLAW data base, and may be applied immediately.
