CUSTOMER SERVICE BULLETIN

With the number of Operating Systems in our product line and their ability to function on more than one model computer, it has become necessary to implement a referencing system to avoid needless duplication of entire sections of this manual.

This bulletin should be placed in the CSB manual behind the tab labeled with the catalog number as shown above on this form, within the following sections.

                              Model 16

Additional copies of this bulletin are included for this purpose.

FOR ALL FIXES TO THIS SOFTWARE REFER TO MODEL 12 SECTION UNDER THE TAB LABELED "26-4911" IN THE MANUAL.
